Elmedina Lita

Web Developer | Digital Marketing Manager | Influencer

PROFILE

I have finished my Bachelor's studies in **Computer Science**, at Beder University College.
Also, on-going status on My Master Degree (the same field).

And also I have attended a training course for Full-Stack developers by Arra Academy.

I am already certified by Learnio, a worldwide and well know web development training for Digital Marketing (Freelancer) institute known for its professionalism.

Always think that Experience is the Best Teacher.

I am always ready to learn new things.
Always hard-working. Very motivated and a good motivator too.
I have good communication skills with clients and my colleagues too.
I am very creative, giving a lot of ideas and always trying to find the best solution for a situation.
Focused on details and thinking like a customer.

I am hopeful that one day I will contribute to different projects for my country (and not only).

"There is no elevator to success. You have to take the stairs! "
